

Protocol for nofitstate's site visit with the ZEPA English partners

We suggested a 3 pronged approach:

1) At the partner's office/venue, around a table, the partner introduces:

- Their objectives
- Their schedule of events, their artistic vision and audience specificities
- Their area of work or what they would like to work on/with

2) In town:

- Visit of the places suggested for the nofitstate shows
- These locations can be supported by meetings/encounters (with local people/artists etc. likely to be part of the project)

3) Back in the office:

- Summary of the partnership options
- First draft of diary of shows (to be compiled at the end of the site visits)
